CHICKS

It's Time NOW to Order 1936 Chicks!

Experiments show that

Early Hatched Chickens

.....make the most rapid gains in weight --
.....bring highest prices at the broiler stage --
.....and have the least mortality.

Such chickens feather out more rapidly in the cool weather of Spring, have less disease and commence to lay earlier -- hence pay

GOOD PROFITS during the Fall high egg prices.

HALLCROSS BABY PULLETS

have all the advantages of Sexed pure breeds, plus hybrid vigor, without any of the dangers of being sexed. They are strong, sturdy, first-generation crossbred chicks and are guaranteed 95% pullets. Scientifically proved facts show that

Crossbred Chicks Possess Remarkable Vitality

that means faster growth, less mortality, more vigor and better egg production at maturity.

We want to help our Customers get the Best Results from HALL BROS. CHICKS

THAT'S WHY WE MAKE YOU AN UNUSUAL OFFER (SEE REVERSE)

NEARLY 11 years ago, a group of poultrymen and college poultry specialists, decided there was a great need for a serious poultry paper in the Northeast devoted to the unprejudiced service of the commercial breeders and hatcherymen. That is how the New England Poultryman and Northeastern Breeder came into being. A. B. Hall of Hall Bros. was one of that original far-sighted group and since has been an active member of the Advisory Editorial Board.

Because we know the high type of useful educational material that the NEW ENGLAND POULTRYMAN carries we feel our chicks will show better results in the hands of those who follow its teachings.

That is why we offer to pay one-half of the subscription price for our customers who wish to accept this offer. *Mail us this money-saving coupon today!*
